

HOUSING EDUCATION AND RESEARCH ASSOCIATION— VISION 2020

At the 2009 HERA Board meeting members were asked for their vision of what HERA could be in 2020. The list below is a summary of ideas.

HERA in 2020....

- The place where people come for the right information before making housing decisions
- Will be the prime organization for all professionals engaged in housing research and education
- Called upon by policy makers for information
- A recognized voice and action group that leads
- Will function at an international level involving professionals globally
- Larger with a greater diversity of membership
- Accountable
- Premier source of networking for housing educators
- Will be a dynamic cutting edge research and education organization sought after by the global community of policy makers, researchers, and educators

To get there requires ACTION! Here are three things you can do...

1. Invite others to join our organization
2. Share the call for papers with former students, colleagues and collaborators
3. Prepare an information sheet on a critical housing issue and share it with two key decision-makers and HERA members
